SUMMARY

Learning Designer with hands-on experience in end-to-end SCORM content development using Articulate Storyline & Rise and Moodle LMS administration. Part of a team managing 208 courses for 10,000+ employees, contributing to a 65% completion rate and 3.64/4 satisfaction score. Currently developing an AI-powered learning assistant integrated into the corporate LMS to modernize employee knowledge access.

PROFESSIONAL EXPERIENCE

Amartha Financial

Oct 2025 – Present

Learning Designer

- Developed end-to-end SCORM learning modules using Articulate Storyline and Rise, covering compliance, onboarding, and operational training aligned with organizational objectives.
- Conducted TNA across HO and FO functions to inform content prioritization and learning path design.
- Supported LMS content administration on Moodle, contributing to 208 courses serving 10,000+ employees with 65% completion rate and 3.64/4 satisfaction score.
- Led development of an AI-powered learning assistant (RAG-based chatbot) integrated into the corporate LMS (Amarthapedia) to provide instant knowledge retrieval. Currently in testing, targeted launch July 2026.
- Produced diverse learning assets including instructional videos, infographics, and event promotional content to support organizational learning and employee engagement.

Universitas Negeri Semarang

Jun 2024 – Jan 2025

Learning Designer

- Developed 5+ interactive learning media projects for elementary students (mathematics & science) using Articulate Storyline, validated by subject matter experts with 91.6% content score and 95.1% media score.
- Achieved 92.5% usability score from teachers and 84.5% from students, with post-implementation test scores improving from 46 to 76 (+30 points) and learning interest rated at 84.6%.
- Collaborated with lecturers and teachers across needs analysis, content validation, and classroom trials using the ADDIE model.

BPTIK Pendidikan dan Kebudayaan Jawa Tengah

Sep 2023 – Nov 2023

Learning Designer

- Developed an interactive educational game for elementary science (plant materials) using GDevelop, presented to department leads.
- Produced animated instructional video on the human skeletal system for elementary students using Adobe After Effects.
